Horticulture contributes to Pepin County diversity

Pepin County sales of fruit, greenhouse and nursery products, and Christmas trees total \$168,000. Landscape and grounds maintenance businesses create additional full-time jobs and many seasonal jobs.

Local food sales account for \$452,000 to economy

More and more Pepin County farmers sell directly to consumers from roadside stands, farmers' markets, auctions and pick-your-own operations, with 32 farms generating \$452,000 in local food sales.

Farmers are stewards of 70% of the county's land

Pepin County farmers own and manage 103,604 acres, or 70 percent, of the county's land. This includes cropland, rangeland, pasture, tree farms and farm forests. As stewards of the land, farmers use conservation practices, such as crop rotation, nutrient management and integrated pest management, to protect environmental resources and provide habitat for wildlife.

University of Wisconsin-Extension

University of Wisconsin-Extension is part of the local and statewide network of organizations and agencies that support Wisconsin's \$88.3 billion agriculture industry. A recent statewide survey of nearly 1,000 agricultural service providers from throughout Wisconsin found that UW-Extension helps enhance economic impact by improving agribusiness services to farmers, increasing agribusiness or farm profitability, expanding agribusiness networks, and helping to reduce agribusiness or farm environmental impacts.

AGRICULTURE – WORKING EVERY DAY FOR WISCONSIN

Pepin County Agriculture:

Value & Economic Impact

©Wisconsin Milk Marketing Board

Agriculture works hard for Pepin County every day. Family-owned farms, food processors and agriculture-related businesses generate thousands of jobs and millions of dollars of economic activity while contributing to local income and tax revenues.

Pepin County cuts through the northern Driftless area of Wisconsin. The county's high bluffs, and valleys of the Chippewa and Mississippi rivers, are home to a diversified agriculture industry. Dairy farms predominate, and are complemented by other livestock and cash grain operations. Vegetable, maple syrup, apple, grape (wine) and various organic producers add specialty to the agricultural economy.

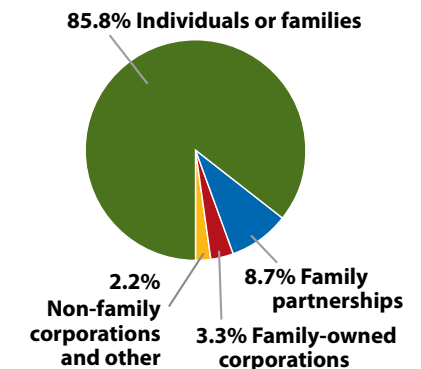

Agritourism destinations blend the beauty of Pepin County – the birthplace of Laura Ingalls Wilder – with the natural agricultural productivity of this area.

How important is agriculture?

- Agriculture provides **jobs for 1,034** Pepin County residents.
- Agriculture accounts for **\$170 million in economic activity**.
- Agriculture contributes **\$58 million** to the county's total income.
- Agriculture pays **\$2.6 million in taxes**. This figure does not include all property taxes paid to local schools.

Who owns the farms?

Agriculture provides 30% of Pepin County's jobs

Pepin County **agriculture provides 1,034 jobs**, or 29.5 percent, of the county's workforce of 3,507. Production jobs include farm owners and managers and farm employees. Agricultural service jobs include veterinarians, crop and livestock consultants, feed, fuel and other crop input suppliers, farm machinery dealers, barn builders and agricultural lenders, to name a few. Processing jobs include those employed in food processing and other value-added industries that support food processors. Every job in agriculture generates an additional 0.53 jobs in the county.

Agriculture contributes \$58 million to county income

Pepin County **agriculture accounts for \$58.3 million**, or 26.4 percent, of the county's total income. This includes wages, salaries, benefits and profits of farmers and workers in agriculture-related businesses. Every dollar of agricultural income generates an additional \$0.77 of county income.

Agriculture pumps \$170 million into local economy

Pepin County **agriculture generates \$170.3 million in economic activity**, 39 percent, of the county's total economic activity. Every dollar of sales from agricultural products generates an additional \$0.45 of economic activity in other parts of the county's economy.

Here's how agriculture stimulates economic activity:

- The direct effect of agriculture equals \$117.8 million and includes the sale of farm products and value-added products.
- Purchases of agricultural and food-processing inputs, services and equipment add another \$40.3 million in economic activity. For example, this includes business-to-business purchases of fuel, seed, fertilizer, feed and farm machinery, as well as veterinary services, crop and livestock consultants and equipment leasing.
- This business-to-business activity then generates another \$12.3 million in economic activity when people who work in agriculture-related businesses spend their earnings in the local economy.

Agriculture pays \$2.6 million in taxes

Economic activity associated with Pepin County farms and agriculture-related businesses **generates \$2.6 million** in local and state taxes. This figure does not include all property taxes paid to support local schools. If it did, the number would increase dramatically.

Table 1. Taxes paid by agriculture

Sales tax	\$0.5 million
Income tax	\$0.8 million
Property tax	\$0.7 million
Other	\$0.5 million
Total	\$2.6 million

Table 2. Pepin County's top commodities (sales by dollar value, 2012)

1. Milk	\$30.97 million
2. Grain	\$26.3 million
3. Cattle & calves	\$12.5 million
4. Other crops & hay	\$0.82 million
5. Vegetables	\$0.37 million

Dairy is a key Pepin County industry

Dairy farming is the major agricultural industry in Pepin County. On-farm production and milk sales account for \$44.2 million. Processing milk into dairy products generates another \$57.6 million.

- Two plants process dairy products in Pepin County.
- On-farm milk production accounts for 242 jobs, and dairy processing accounts for 158 jobs.
- At the county level, each dairy cow generates \$4,419 in on-farm sales to producers.
- At the state level, each dairy cow generates over \$34,000 in total sales.
